DETAILED ACTION

Applicants response filed 11/03/2008 is acknowledged.

Response to Applicants Remarks:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Previously presented rejection of claims 1-14 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is maintained.

Amendments to claims and applicants arguments were fully considered. These overcome part of the rejection.

Rejection with respect to terms 'pure', 'extra pure' is maintained. Applicant draws Examiner's attention to various parts of the specification. However, although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Also see, *In re Zletz*, 13 USPQ2d 1320, 1322. "An essential purpose of patent examination is to fashion claims that are precise, clear, correct and unambiguous."

Defining purity levels in terms of percentage numbers would overcome the rejection.

Claim 1 is also vague because it is unclear what is being lactonized.

It is suggested that the terms --mevinolinic acid—is inserted between the terms 'lactonization' and 'and' in claim 1, line 1.

Claim Rejections - 35 USC § 103

Applicant's persuasive arguments overcome the previously presented rejection. Applicant asserts that instantly claimed process provides higher yield relative to the prior art processes.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
